PROJECT DESCRIPTION

Contract Specialist: Roberto Montanez -256-842-3781- roberto.c.montanez.civ@mail.mil

Contracting Officer: Joe Pollard - (256) 876-1299, joe.w.pollard.civ@mail.mil

Brief Description

The U.S. Army Research, Development, and Engineering Command (USARDEOM), Aviation Engineering Directorate (AED), has the responsibility to provide systems engineering for the A/MH-6, MH-47, MH-60 and other/future US Army Special Operations Helicopters undergoing continued improvement by the Technology Applications Program Office (TAPO). This support is required to maintain continued safety and airworthiness of the Special Operations Aircraft (SOA) fleet. This task order will provide critical Airworthiness support to the TAPO in the area of airworthiness and system engineering. Due to the urgency of TAPO programs, most tasks are performed with short suspenses.

Strategy

Contract Type: Time & Material

Contract Length: 3 Years

Set Aside: None

Milestones*	Date
* Complete CRP Received	12/06/2015

SMDC/CAMO

- ★ UPCOMING REQUIREMENTS
- ★ ACTIONS IN EVALUATION

UNCLASSIFIED

Army Contracting Command - Redstone

CCAM-CAA-A SSEBs

Action

- Design, Development, Demonstration and Integration (D3I) Domain 1
- D3I will provide the Command and its customers with the ability to procure a broad range of missile defense, space and other applicable Warfighter solutions in support of developmental and operational requirements. The requirements will be primarily research and development, specifically system integration to include prototyping. D1: Enhanced Warfighter Capabilities

Strategy

- MAIDIQ
- Participating Contractors: TBD
- Contract Type: Various
- Contract Ceiling: TBD
- Period of Performance: TBD

Status

- SSEB in process continues

Projected Milestones

- Anticipated award: 2nd Quarter 2017

UNCLASSIFIED

Army Contracting Command - Redstone

CCAM-CAA-A MAIDIQ

Action

- Design, Development, Demonstration and Integration (D3I) Domain 2
- D3I will provide the Command and its customers with the ability to procure a broad range of missile defense, space and other applicable Warfighter solutions in support of developmental and operational requirements. The requirements will be primarily research and development, specifically system integration to include prototyping. D2: Information Integration and Data Exploitation

Strategy

- MAIDIQ Awarded Feb 2016
- Participating Contractors: Six
- Contract Type: Various
- Contract Ceiling: \$.054B
- Period of Performance: Base five years with two 2-year options

Status

- TORP requirement packages being developed
- Determining list of known requirements to be processed under D2

Projected Milestones

- TORP 2-1601 for Wargames Simulation and Scenario Development (WSSD) was issued on 14 July 2016 with proposals due 28 July 2016

UNCLASSIFIED

Army Contracting Command - Redstone

CCAM-CAA-A MAIDIQ

Action

- Design, Development, Demonstration and Integration (D3I) Domain 3
- D3I will provide the Command and its customers with the ability to procure a broad range of missile defense, space and other applicable Warfighter solutions in support of developmental and operational requirements. The requirements will be primarily research and development, specifically system integration to include prototyping. D3: Space/High Altitude and Missile Defense

Strategy

- MAIDIQ Awarded 17 Dec 2015
- Four Participating Contractors
- Contract Type: Various
- Contract Ceiling: \$1.058B shared ceiling
- Period of Performance: Base five years with two 2-year Options

- This effort provides services for the RTS on Kwajalein Atoll, to include the operation and maintenance of sensors and systems, mission data collection, support to customers for missile and system testing, and space surveillance and object identification for the Warfighter. Additionally, contract support services are required to support activities at a control center in Huntsville, AL.

Status

- Acquisition Planning and Requirements Development

Strategy

- Single Contract Award
- Contracting Approach: TBD
- Contract Type: TBD
- Period of Performance: TBD

Projected Milestones

- Projected date of DRAFT solicitation release 1st Qtr 2017
- Projected award 1st Qtr FY18

CCAM-CAB-A CURRENT SETAC

Action

- Current Systems Engineering and Technical Support Contracts (SETAC)
- SETA support for various USASMDC/ARSTRAT missions to include air, space, missile defense; cyberspace; homeland security/homeland defense; and warfighter efforts as they are defined by higher headquarters, the Department of Defense (DoD), and Congress.

Strategy

- SETAC Awarded 20 Dec 2012
- Nine Participating Prime Contractors
- Contract Type: Various
- Programmatic Ceiling of \$997M
- Period of Performance: Two year base and one three year option

Status

- Awarded 34 task orders to date with total cumulative value of \$485.4M
- Ordering period for SETAC expires 20 Dec 2017 with remaining ceiling of \$511.6M
- Currently have 20 active task orders for total cumulative value of \$338.4M

Projected

Milestones

- Anticipate one competitive task order RFP to be released by the end of September 2016. Estimated Award by 19 December 2016.

UNCLASSIFIED

Army Contracting Command - Redstone

CCAM-CAB-A SETAC Re-compete

Action

- Follow-on Systems Engineering and Technical Assistance Contract (SETAC) - \$TBD
- SETA support for various USASMDC/ARSTRAT missions to include air, space, missile defense; cyberspace; homeland security/homeland defense; and warfighter efforts as they are defined by higher headquarters, the Department of Defense (DoD), and Congress.

Strategy

- Multiple strategies being considered
 - Multiple-Award IDIQ (Status Quo)
 - GSA OASIS
 - Combining with Next Gen
- Small Business Set-Aside
- Contract Type TBD

Status

- Acquisition Strategy Development

Projected Milestones

- Course of Action Decision: TBD
- Projected Solicitation Release: TBD

CCAM-CAB-A LITeS II Re-compete

Action

- LOGSA Information Technology Support II (LITeS II)
- Requirement Description: High quality, efficient and effective full range of Information Technology (IT) support and Data Center services.

Strategy

- Data Center Portion - The requirement will substantially reduce/change with removal of the Data Center portion of the requirement.
 - In order to meet Army Directive's, the Logistics Information Warehouse (LIW) data storage is projected to transfer to DISA sometime in FY18.
 - The current contract will require modification to facilitate the transfer to DISA.

Status

- Labor Portion - LOGSA must reevaluate the requirement to identify and separate what portion of the labor requirement aligns with the Data Center and which does not. The labor portion that does not align with the Data Center will become the new requirement(s).
- It is possible that LOGSA will breakout the labor portion of the contract into one or more requirements dependent on future mission requirements and existing contract vehicles.

Projected Milestones

- Plan to execute a modification on the current contract to allow for DISA consolidation to take place.

UNCLASSIFIED

Army Contracting Command - Redstone

CCAM-CAB-B ITSS III Re-compete

Action

- AMCOM G6 Information Technology Support Services III (ITSS III).
- Requirement Description: A full range of IT support services that focus in the areas of IT Services, Enterprise Design/Integration/Consolidation, IT Education/Training, IT Program/Project Management, Systems Operations and Maintenance, Network Support and embedded Information Systems Security and Information Assurance.

Strategy

- Planned Contract type - Hybrid of CPFF/Cost Reimbursable
- Set aside - No
- Possible Contract Vehicles - GSA Alliant; CHES; or Full and Open Competition

Status

- ITSS II period of performance is through 31 December 2016.
- Re-compete Planning stages - Acquisition Plan/Acquisition Strategy have not been approved at this time.

Projected Milestones

- Event 1: ICE ITSS III - TBD
- Draft Solicitation - 4th Quarter of FY16
- Final Solicitation - 1st Quarter of FY17
- EDA - 2nd Quarter of FY18
